RACE TO A MILLION

A memory game about time,
consistency and investing.

HOW TO PLAY

- 1 Cut out all the cards (pages 2–4).
- 2 Lay the Investor cards face up (page 2).
- 3 Shuffle the Finish cards and lay them face down (page 3).
- 4 Choose an Investor card, then turn over a Finish card.
- 5 Check the name on the back of the Finish card (page 4).
- 6 If it's a match, keep the pair. If not, turn the Finish card back over and try to remember whose it was.
- 7 Keep going until you've matched all 12 pairs.

PARENT NOTE

These figures are based on an assumed 7% average annual growth rate and aren't adjusted for inflation. They show how time and consistent investing can make a big difference, even with relatively small amounts.

THE AIM

Match each investor to the age they reach £1,000,000.

Print this page, then cut out the cards.

Maya

Starts at age
18

Invests
£1,000
per month
